- Item 3.** Water – Sewer Request – There were 9 residential water tap requests and 3 requests for residential sewer in the month of August.
- Item 4.** Water Plant- Reports and Memos – Water Plant Supervisor Terry Smith reported on the monthly activities of the plant. The water plant operated at an average of 18.7 hours per day. The three-month water loss average was 32.1%. The plant ran at a capacity of 77.9 % for the month of August.
- Item 5.** Wastewater Plant- Reports and Memos – Supervisor Caryl Giles reported on the monthly activities of the wastewater plant.

Employees hauled 19,000 gallons of sludge from the Cornersville WWTP to be converted into biosolids.

Employees hauled 216 tons of biosolids to various farms.

Employees hauled 140,600 gallons of mud from the Water Plant lagoon.

Trips/Classes

NA

Tours/Visits

NA

Pretreatment

One Industry was inspected and 9 industry samplers were set.

Item 6. Other Business

6a. Project Update

1. Sidewalks on Mooresville Road TDOT project – This project is almost completed on the north side of the road. We hope there will be no conflicts on the south side.
2. We are about to dig up and replace the old broken concrete sewer line that run through the land that was once McCord school. This should reduce inflow of rainwater and eliminate sewer backups. We have paid a company to clear the brush and trees that have grown up over the line.
3. We have begun the design process on a new booster pump station across from Allison Transmissions. This station will be above the ground and twice the capacity of the old one. We are working on an agreement to be given the land or to purchase it.

Meeting adjourned at 12:32 pm

Chairman, Bill Marsh

Secretary, Joe Harris
